Homosexual Activists Get White House Hearing

WASHINGTON — (AP) — A White House aide has scheduled a meeting next month with 10 representatives of a homosexual-rights activist group after what she described as a very impressive session with two of them last week.

Midge Costanza, presidential assistant for public liaison, met last week with the two executive directors of the National Gay Task Force, an aide said, to hear their complaints of discrimination against homosexuals by government agencies.

SHE LATER wrote them, "I have been impressed with the presentation you have made and wish to explore more fully the role my office and I can play, specifically in facilitating meetings with those persons who will be most helpful to you in the areas we have reviewed."

The second meeting was scheduled for the White House on March 26

Copies of the letter to Jean O'Leary and Bruce Voeller were dis-

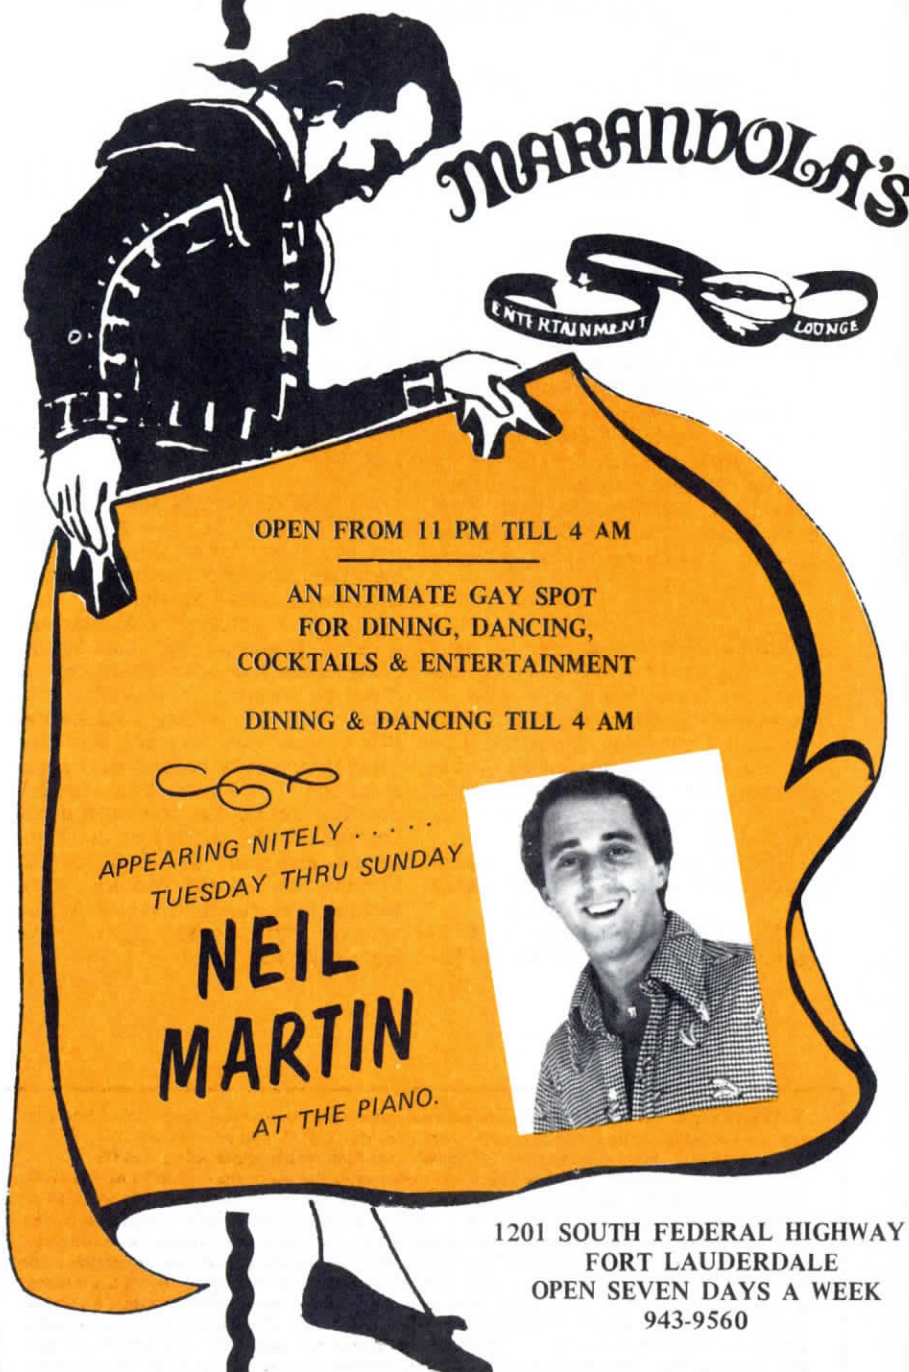

tributed to the press by the organization along with a press release that began:

"For the first time in the history of the United States, a top-level official at the White House has met with representatives of this nation's second-largest minority, the estimated 20 million lesbians and gay men."

IN THE letter, Midge Costanza listed as first on the March 26 agenda, "oppression, discrimination and the need for national leadership and national legislation."

She also agreed to discuss the group's position that the United States bars homosexuals from visiting the country or becoming citizens, that the military discharges them, that the Internal Revenue Service prevents homosexual organizations from claiming tax-deductible status, that imprisoned homosexuals are victims of discrimination and that the Civil Rights Commission should assume jurisdiction over cases in which homosexuals claim their rights have been violated.
