EDITOR'S NOTE

This fourth edition of THE ADDRESS BOOK for 1968 has been expanded to include some states with no listings previously, and in addition a section has been added for Puerto Rico. The result is almost 1050 places to go in some 275 cities in North America.

For the third year, Bob Damron has traveled the U.S. and Canada to obtain accurate, on-the-spot additions and revisions. Thus with its completeness and its thin pocket size, this little volume has become the most popular guide of its type.

While its accuracy is almost 100% as we go to press, the scene does change everywhere for various reasons. Therefore readers are urged to make local inquiry where indicated.

As in the past, the publishers are grateful to readers for their information on new places to go and other appropriate changes for future editions of this book.
