ADDRESS BOOK

PUBLISHER'S NOTE

This is the sixth edition of THE ADDRESS BOOK, and if imitation is the sincerest form of flattery, we have indeed achieved success. But don't be misled, and don't accept anything less than the best and most accurate guide of its kind.

In my extensive travel throughout the country, I find that a number of establishments have closed for one reason or another. However many new, and in many cases, better, ones have taken their places. The result is over 1,460 listings in some 335 cities in the United States, Canada & Puerto Rico.

The publisher will welcome letters from our many readers, and will be most appreciative to learn of any errors, additions or other information. Most of all, I wish to thank my many friends and correspondents, without whose help this book would not be possible.
