RE: AFTER HOURS PROGRAM
DT: 17 AUGUST 87

After reviewing your program proposal and listening to the sample tape you made I feel that "After Hours" is a viable concept and potentially a very valuable program for the community. After discussing this with Jean I am pleased to let you that we will start airing the program from 2-4 AM on Saturday nights on a trial basis for two months. At that time we will meet to review the progress of the show and determine the future status of "After Hours". The date of the first program will be September 6,1987 from 2-4 AM(late night Saturday/very early Sunday) The lead-in program is "Musical Curfew" which is hosted by Jay Lee and Steve Boado. The following program currently is called "Red Ink" and is hosted by Crystal Leee..but it will most-likely be changing in the near future. If there are any questions regarding station policies and practices please clear them up with me, preferably before the first program airs. I wish you the best with this program add "Congratulations".
